EDUCATION

University of Houston

Houston, TX

Bachelor of Science, Biotechnology

Jan. 2023 – May 2027

- Relevant Coursework: Intro to Biotechnology, Biopython, Microbiology & Lab, Biology I & II, Chemistry I & II

EXPERIENCE

Immatics

Houston, TX

Quality Control Research Associate Assistant

May 2025 – Present

- Supported a QC research associate in mammalian cell culture and light microscopy assessments, troubleshooting protocols and documenting results in Microsoft Office, enabling timely identification of assay deviations and ensuring compliance with quality-control standards critical for regulatory submissions.
- Performed daily QC tasks including sterile mammalian cell culture, sample preparation, and pipetting for plate reader and spectrophotometer assays, maintaining error-free runs and zero contamination events over several weeks.

Johnson & Johnson MedTech – Forage

Virtual

Digital Surgical Solutions Virtual Simulation

Aug. 2024 – Jan. 2026

- Used SolidWorks to design mock surgical components and map digital surgical workflows for robotic surgical systems, demonstrating proficiency in medical device design and process modeling.
- Analyzed delayed responses in a surgical robotic arm via Excel and Python; identified software root causes and clarified system requirements to prioritize control software fixes.
- Performed iterative control code testing in Python to resolve robotic response-time errors; documented findings using structured reporting templates.

Chick-fil-A Restaurants (Bella Terra)

Houston, TX

Team Member

Jun. 2023 – Aug. 2024

- Maintained ~98% cash handling accuracy across 500+ transactions/hour; identified workflow bottlenecks and contributed process improvements that reduced customer wait times.

PROJECTS

Desktop Bioreactor – Gene Therapy Bioprocessing | *Fusion 360, CAD, Design for Manufacturing* Dec. 2025 – Present

- Designing a desktop bioreactor system in Fusion 360 to model gene therapy bioprocessing workflows and lab-scale manufacturing constraints.
- Developed CAD concept for a compact bioreactor chamber including vessel geometry, component layout, and fluid-handling integration points; optimizing for 3D-print fabrication.

CERTIFICATIONS

CITI Program (2026): Biomedical Eng. Responsible Conduct of Research; Biosafety Officer Training; Research Security Training

MathWorks (2026): MATLAB Onramp

TECHNICAL SKILLS

Lab Techniques: Mammalian Cell Culture, Aseptic Technique, PCR, Gel Electrophoresis, Light Microscopy, Microbiology Staining, Serial Dilutions, Pipetting, Plate Reader & Spectrophotometer Assays

CAD & Engineering: SolidWorks, Fusion 360, AutoCAD, Inventor Pro

Programming: Python, MATLAB, Biopython

Tools: Microsoft Office (Excel, Word, PowerPoint), POS Systems

Soft Skills: Technical Documentation, Cross-functional Communication, Team Leadership, Problem Solving

LEADERSHIP & ACTIVITIES

Rosenberg-Richmond Helping Hand

Houston, TX

Team Leader

- Coordinated a volunteer team assisting families in accessing community resources; managed case details in Excel, scheduled support activities, and tracked follow-up actions across community partners.
